

The Ark

“By perseverance, the snail reached the Ark”.

Charles H Spurgeon

The Ark, our largest therapeutic space is multipurpose. It is designed for family work at one end and sandtray interventions at the other. It can manage a wide variety of ages but requires a greater ability to self-regulate or be socially regulated.

“You are mistaken if you think we have to lower ourselves to communicate with children. On the contrary, we have to reach up to their feelings, stretch, stand on our tiptoes.”

Janusz Korczak 1925
