

## The Nest

“You can discover more about a person in an hour of play than in a year of conversation”.

Plato

Our smallest room is not the least important, but the most significant in terms of its wide range of uses. It is containing for our youngest and most disorganised clients; it is also often chosen by adolescents and adults. All our rooms are resourced in the same way, but the layout is with the intent of providing access to the needs of each individual regardless of their chronological age.

“You are mistaken if you think we have to lower ourselves to communicate with children. On the contrary, we have to reach up to their feelings, stretch, stand on our tiptoes.”

Janusz Korczak 1925
